

TYPE I & II PLYWOOD BARRICADES

BENT MANUFACTURING COMPANY BDAA, INC.

TYPE I & II PLYWOOD BARRICADES

FEATURES:

- The first and finest NCHRP-350 approved steel leg and plywood panel barricade.
- Legs are available either galvanized or enamel painted for maximum corrosion protection.
- Boards have high pressure, roller-applied, self-adhesive reflective sheeting to conform with all local, state and federal regulations.
- Barricades are assembled with 1/4" x 1" galvanized carriage bolts with nuts and (2) truss-head aluminum hinge pins or 1/2" hinge nuts and bolts, available with optional brass grommet liner.
- Hinge holes are enlarged to accommodate 1/2" flasher mounting bolts.
- All barricade components are completely interchangeable and sold as complete units or separate items (panels and legs). Light not included.
